PERSONAL PROJECTS

Wanderlust for rent a house (04/2023 - 09/2024)

- Created a fully functional web site using MERN stack.
- Just like airbnb website users can login ,signup and can put their own house on wanderlust means they can earn their own home on the website .
- Uses database MongoDB to store the data and also uses MVC framework and deploy the project on render
- Link of project -<https://wanderlust-1upa.onrender.com/listings>

University Domain Name (09/2023 - 12/2002)

- Built this domain for searching the university in every country all over the world.
- Made this project using JavaScript and API calling.
- Also I have fixed the country to India and uses States to search the colleges.
