❖ X (CBSE) | Jagran Public School   *95%|2019*

ACADEMIC PROJECTS

❖ *Wanderlust(Air-Bnb)*

• Created a fully functional web site using MERN stack.

• Just like airbnb website we can login ,signup and can create their own listings means they can airbnb their own home on the page . People can edit and delete their listings I added a part to rate the listings and also uses Mapbox to locate destination on map .

• Uses database MongoDB to store the also uses MVC framework and deploy the project on render.com

• Uses Hashing and Salting techniques in password with Passport.com.

❖ *University Domain Name*

• Built this domain for searching the university in every country all over the world.
• Made this project using JavaScript and API calling.
• Also I have fixed the country to India and uses States to search the colleges.

❖ *Simon Says Game*

• Built a famous game using JavaScript

- It flash light after you enter correct button , It also calculate your score.
- After you enter a wrong input it will become over with a red flash over the window.

❖ *Netflix Landing Page*

- A Responsive Netflix India landing page using pure HTML & vanilla CSS.
- Added too many clickable buttons only using HTML & CSS.
